

I want to be able to hear K-Love as I wake up, drive my car, and as I work. Our community has a lot of music listening church goers. We need to be able to listen to christian music in between our church services to help us feel close to God in this awful times. I also feel that our youth of today needs an alternative type music so they can make a choice for themselves as whether God should be a part of their lives and K-Love gives them this atlernative.
